# **Don't let the FLU affect your business!**

Are you concerned about the possible staffing issues due to influenza?

**NOW** is the time to **PREPARE FOR NEXT YEAR.**

Let us come to your workplace and provide **FLU SHOTS** to you and your employees this fall.

We will work with your schedule,  
and several billing options are available.

Most prescription drug plans cover the flu shot,  
so there is likely **NO COST** to your company or your employees.

We need to pre-book our new 2018/19 flu shot inventory  
by late March 2018, so if you are interested  
in protecting your bottom line,  
please call and talk to Becky or Erik **before March 15, 2018.**
