

Skills Accelerator

*Job seekers need more than just skills.
They need support.*

Workers need skills, but they also need coaching and connections. gener8tor's Skills Accelerator provides the digital skills and career supports that workers need to ensure they are future-ready. The virtual program includes in-demand workforce skills development, coaching, job search tools, and job placement for in-person and remote jobs.

In the midst of worker shortages and businesses struggling to keep their doors open, gener8tor is skilling the next generation of workers in 5-10 weeks.

How we serve workers – and fill jobs

✓ OUR MODEL

gener8tor's Skills Accelerator combines the traditional accelerator model utilized for early-stage startups and adapts it to serve workers and employers. Rapidly accelerated learning with one-on-one support makes an immediate difference in participant's careers and lives. ***In addition to the skills participants gain, their coaches provide guidance and support, as well as deadlines and accountability to keep them moving forward.***

✓ OUR ACCESS + COMMITMENT TO THE COMMUNITY

The Skills Accelerator focuses on underserved, historically uninvested, and COVID impacted populations and communities. Remote and on-demand programming creates opportunity for individuals who can't physically be in a group setting due to geography, family commitments or erratic work schedules. ***gener8tor's recruiting model finds participants disconnected from the traditional workforce system, provides skills, and helps them find a job.***

✓ OUR PLACEMENT

Skills Accelerator participants receive a wide range of supports – assistance refreshing or creating resumes, LinkedIn profiles, and cover letter templates; mock interviews; connections to industry experts during lunch and learns; and concierge placement into good jobs. After graduation, gener8tor facilitates introductions and interviews with our startup and corporate partners but most importantly, the local hiring partners seeking talent. ***The program moves workers from lower-wage jobs to more resilient, higher wage occupations.***
